Description
Simple and powerful voice changer for Linux, written in GTK 3 License: MIT Source code: https://github.com/lyrebird-voice-changer/lyrebird

---

History

#1 - 2022-02-13 08:06 PM - bill-auger

there is a PKGBUILD for this software on the AUR
https://aur.archlinux.org/cgit/aur.git/tree/?h=lyrebird

#2 - 2022-08-11 10:38 PM - anonymous

I tested PKGBUILD from AUR. Lyrebird output the following error

```
$ lyrebird
Traceback (most recent call last):
  File "/usr/share/lyrebird/app.py", line 13, in <module>
    win = mainwindow.MainWindow()
  File "/usr/share/lyrebird/app/mainwindow.py", line 27, in __init__
    Gtk.Window.__init__(self, title='Lyrebird')
  File "/usr/lib/python3.10/site-packages/gi/overrides/Gtk.py", line 519, in __init__
    raise RuntimeError(
RuntimeError: Gtk couldn't be initialized. Use Gtk.init_check() if you want to handle this case.
```
