

Packages - Packaging Request #3184

[tribler] Adding to repository for x86_64 architecture

2022-02-13 10:53 AM - anonymous

Status: wont-fix	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description We have a packages for armv7h and i686 architectures, but not for x86_64. It would be nice to add a package for this architecture as well. Tribler is an open source decentralized BitTorrent client. License: GNU GPL-3.0-only Website: https://www.tribler.org/ Repository: https://github.com/Tribler/tribler

- Status changed from open to wont-fix

there is nothing that parabola can do about this - tribler was removed because it no longer works on arch; so it would not work on parabola either - it may be re-introduced at some later time, if the tribler devs can make it compatible again

<https://bugs.archlinux.org/task/68874>

f anyone needs to use it, there are multiple work-arounds - one involving `sudo pip` and the other is to downgrade 'python-apispec' to 4.7.1
