Category:			
Description Decentralized pool for mining Monero peer2peer. Eliminates the problem of centralization from ordinary mining pools. <ul style="list-style-type: none">• There is no pool administrator, no commissions and it cannot be used for network attacks, it cannot be disabled or blocked.• There is no one to decide who can mining in the pool, and who is not.• No pool wallet. All pool blocks are paid by miners immediately. License: GNU GPL-3.0 Repository: https://github.com/SChernykh/p2pool
