

Packages - Packaging Request #3203

Switch back to nextcloud-client package in the Arch repositories

2022-03-17 11:48 PM - sseneca

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description Previously, Arch used to build nextcloud-client with the nonfree qt5-webengine dependency. Upstream have since added the option to build the client without webengine, and Arch now build nextcloud-client in this way, the same way it's currently built in Parabola's libre repositories. https://github.com/archlinux/svntogit-community/commit/a0b421fe5feaca853f340392d11fa5d7b1ae3130 Thus Parabola can just go back to using the Arch package and drop the package from the libre repositories.
