

Packages - Freedom Issue #3244

[brutalchess] Potentially nonfree fonts

2022-04-15 06:55 PM - gap

Status: Priority: Assignee: Category:	unconfirmed bug	% Done: 0%
Description The project itself has a libre license, but the fonts directory has no licenses for each font. I strongly suspect they are nonfree, especially because the origin of the fonts are not documented, and a quick web search could not find the source for them under libre licenses. Eg. Ghostwri.ttf appears to be the Ghostwriter font, and a quick web search yielded no results with a libre license.
