

Packages - Bug #3251

[fonts-meta]: unsatisfiable dependencies

2022-04-23 07:51 PM - gap

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description What's odd is that I also had to attempt to manually upgrade the package to get this error, because pacman -Syu reports no issues and doesn't bother to upgrade the package.	

History

#1 - 2022-04-24 10:11 AM - kabo

I'm also having issues.

```
$ doas pacman -S fonts-meta
resolving dependencies...
warning: cannot resolve "bdf-unifont", a dependency of "fonts-meta"
warning: cannot resolve "terminus-font-otb", a dependency of "fonts-meta"
:: The following package cannot be upgraded due to unresolvable dependencies:
   fonts-meta

:: Do you want to skip the above package for this upgrade? [y/N] y
looking for conflicting packages...
there is nothing to do
```

- Status changed from unconfirmed to confirmed

#3 - 2022-04-27 03:59 PM - gap

Fix for the terminus-font-otb issue: remove line 49 of the PKGBUILD because the package no longer exists.

Fix for the bdf-unifont issue: package it for all architectures, not just i686.

#4 - 2022-04-28 06:24 AM - bill-auger

- Subject changed from [fonts-meta] can't upgrade package due to unsatisfiable terminus-font-otb dependency to [fonts-meta]: unsatisfiable dependencies

gap -

you are probably misunderstanding what pacman is telling you - the 'fonts-meta' package has not changed since 2020 - if you had that package installed already, then you would also have it's 'terminus-font-otb' dependency installed, and pacman would not be complaining about it

im fairly certain that you would only see the error that kabo posted, if you did not have 'fonts-meta' installed, and were installing it for the first time

in any case, the conflict exists - i will just change the BR title

#5 - 2022-04-28 02:07 PM - gap

You're probably correct and I misremembered what happened.
