| <b>Description</b><br>Trisquel have a better repository of plugins than GNUZilla. Why not change the default repository for those from Trisquel?<br>Modify (or adapt) the following parameters in about:config like this:<br><pre>pfs.datasources.url = http://trisquel.info/sites/pfs.php?mime=%PLUGIN_MIMETYPE% pfs.filehint.url = http://trisquel.info/sites/pfs.php?mime=%PLUGIN_MIMETYPE%  extensions.webservice.discoverURL = https://trisquel.info/browser-plain extensions.getAddons.search.url = http://trisquel.info  browser.dictionaries.download.url = http://dictionaries.mozdev.org/ browser.search.searchEnginesURL = http://mycroft.mozdev.org/</pre> I uploaded some screenshots to show the final result! |                   |
| <b>Related issues:</b><br>Related to Packages - Bug #325: compiles iceweasel-libre with Gstreamer support <b>fixed</b> <b>2013-05-07</b>   |                   |

#### History

##### #2 - 2013-05-08 12:19 AM - g.one

I agree!

##### #3 - 2013-05-20 03:57 PM - Anonymous

i put it on the last revision, but is not stable yet, example: if you install a addon from there it works fine, but when you want install another one, it doesn't works, i don't understand, but if you don't have this problem, please give to us a complete patch based like lukeshu made it one example => <https://projects.parabolagnulinux.org/abslibre.git/tree/libre/iceweasel-libre/replace-urls.txt>

##### #4 - 2013-12-14 07:31 AM - Anonymous

- Status changed from open to fixed

icecat has directory.fsf.org addons by default since 24.0 version, so we put it on iceweasel-libre, icedove-libre and iceape-libre too. now it's solved!
