

Packages - Packaging Request #3323

Package silk-guardian for Parabola

2022-08-05 12:42 PM - wael

Status: open	% Done: 80%
Priority: wish	
Assignee:	
Category:	
Description This kernel module allows shutdown of the system on unauthorized device plug-in USB. I tried checking if upstream has a PKGBUILD and found none, could make one if there is enough interest.	

History

#1 - 2022-08-05 12:42 PM - wael

Here is the project page: <https://github.com/NateBrune/silk-guardian>

#2 - 2022-08-14 06:41 AM - wael

- % Done changed from 0 to 80

- File PKGBUILD added

I've attached a PKGBUILD that seems to be working fine, I wrote it from scratch and as such I'm willing to maintain it too (if it gets accepted).

#3 - 2022-10-02 08:43 AM - wael

Any updates on this or if it can be packaged at all?
