

Packages - Packaging Request #3357

[i2pd-openrc] Add to repository

2022-10-02 08:19 AM - anonymous

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description	
We take package "i2pd" directly from Archlinux, and which contains only SystemD init script. I suggest adding OpenRC script as a separate package.	
Script: https://github.com/PurpleI2P/i2pd/blob/openssl/contrib/openrc/i2pd.openrc	
I think that script needs to be changed, added parameter of start as user:group "i2pd:i2pd". Because it is useful for those who have iptables rules.

that init script from the upstream does not work on parabola

```
$ sudo rc-service i2pd start
* Caching service dependencies ...
Service `i2pd' needs non existent service `mountall'
[ ok ]
* ERROR: i2pd needs service(s) mountall
```

the one from artix does though - there is a new 'i2pd-openrc' package in nonsystemd now

the artix init script is very basic though - the upstream init script is more elaborate - it maybe does more *something* - i did not inspect it
