

Packages - Bug #3376

[zeitgeist-explorer]: PyGIWarning: Gtk was imported without specifying a version first

2022-11-24 03:09 PM - maddox

Status:	forwarded upstream	% Done:	0%
Priority:	bug		
Assignee:	bill-auger		
Category:			
Description			
Just run the command on shell:			
<pre>\$ zeitgeist-explorer /usr/bin/zeitgeist-explorer:22: PyGIWarning: Gtk was imported without specifying a version first. Use gi.require_version('Gtk', '4.0') before import to ensure that the right version gets loaded. from gi.repository import Gtk Traceback (most recent call last): File "/usr/bin/zeitgeist-explorer", line 25, in <module> from zgexplorer.window import ExplorerMainWindow File "/usr/lib/python3.10/site-packages/zgexplorer/window.py", line 26, in <module> from zgexplorer.monitorviewer import MonitorViewer File "/usr/lib/python3.10/site-packages/zgexplorer/monitorviewer.py", line 27, in <module> from zgexplorer.eventwidgets import EventDetailsViewer, EventsTreeView, EventsViewer File "/usr/lib/python3.10/site-packages/zgexplorer/eventwidgets.py", line 36, in <module> class EventsViewer(Gtk.VBox): File "/usr/lib/python3.10/site-packages/gi/overrides/__init__.py", line 32, in __getattr__ return getattr(self._introspection_module, name) File "/usr/lib/python3.10/site-packages/gi/module.py", line 123, in __getattr__ raise AttributeError("%r object has no attribute %r" % (AttributeError: 'gi.repository.Gtk' object has no attribute 'VBox'</pre>			

History

#1 - 2022-12-12 04:02 PM - bill-auger

- Status changed from unconfirmed to confirmed

- Description updated

- Subject changed from /usr/bin/zeitgeist-explorer:22: PyGIWarning: Gtk was imported without specifying a version first to [zeitgeist-explorer]: PyGIWarning: Gtk was imported without specifying a version first

#2 - 2022-12-12 04:13 PM - bill-auger

- Status changed from confirmed to forwarded upstream

apparently, this has been known upstream since over a year¹; but has gotten no attention/progress although there is a trivial patch offered², claiming to fix the bug

[1]: <https://bugs.archlinux.org/task/71248>

[2]: <https://bugs.archlinux.org/task/71248?getfile=20408>

i suppose that for next step, someone should try that patch

#3 - 2022-12-19 10:37 PM - bill-auger

- Assignee set to bill-auger

- Subject changed from [zeitgeist-explorer]: PyGIWarning: Gtk was imported without specifying a version first to [zeitgeist-explorer]: PyGIWarning: Gtk was imported without specifying a version first

there is a patched 'zeitgeist-explorer' in [libre-testing] now - could ppl try it ?

```
# pacman -U https://repo.parabola.nu/pool/parabola/zeitgeist-explorer-0.2-11.parabolal-any.pkg.tar.zst
```

#4 - 2022-12-21 04:55 PM - bill-auger

```
$ grep zeitgeist blacklist.txt
```

zeitgeist-explorer:zeitgeist-explorer:parabola:3376:[technical] fix neglected upstream bug (arch #71248)

#5 - 2022-12-24 11:09 PM - bill-auger

moved to [libre]

#6 - 2022-12-29 10:45 PM - anonymous

tested, without error
