<b>Description</b> Found myself unable to update because jack2 and perl packages depend on db5.3. db is on version 6.2.  mpd depends too on db5.3: mpd: error while loading shared libraries: libdb-5.3.so: cannot open shared object file: No such file or directory  A downgrade of db solve the problem with mpd. Sorry for my bad english!

the last repo sync failed - presumably the new 'db5.3' compat package was in the pipe
