

Packages - Bug #3405

Bug # 3395 (fixed): [ruby] Requires rubygems, which conflicts with your-freedom

[various]: RubyGems were not loaded

2022-12-21 10:40 PM - bill-auger

Status: fixed	% Done: 100%
Priority: bug	
Assignee: lukeshu	
Category:	
Description \$ lolcat <<<'hello' 'RubyGems' were not loaded. this affects every ruby program; so presumably, it can be patched in the 'ruby' package	
Related issues: Related to Packages - Bug #3440: metasploit fails to start fixed

This is fixable by simply adding --disable-rubygems to the configure command in build()

This doesn't solve [#3406](#) though. Bundled gems such as ruby-rake appear to still be broken, as before. But at least the extra error is gone.

```
/usr/bin/rake:9:in `require': cannot load such file -- rubygems (LoadError)
  from /usr/bin/rake:9:in `<main>'
```

#4 - 2022-12-22 08:13 PM - bill-auger

which package configure command? 'ruby'? or each client?

#5 - 2022-12-22 08:16 PM - bill-auger

also, note that this ticket is about the "RubyGems were not loaded" warning - the "rubygems (LoadError)" error is handled on ticket [#3406](#)

'rubygems' was patched and re-instated - this is probably fixed now - can people verify?

#8 - 2024-02-26 02:39 AM - lukeshu

- % Done changed from 0 to 100

- Status changed from confirmed to fixed

One of the affected packages was extra/ruby-ronn-ng.

The libretools 20240221.1-2 build verified that ronn now works with its declared depends. So marking this as fixed.
