<ul style="list-style-type: none">steps to reproduce:<ol style="list-style-type: none">pacman -S tor-hardened-preferencesrc-service tor startexpected result: chrooted tor as if running tor-hardened.shactual result: regular tor is run (there is no tor-hardened-preferences-openrc)contributed script The attached script works for me (at least to run (use with caution). Please, ammend and create a package or add to the existing tor-hardened-preferences. Hopefully, I will have the chance to finally get a system to create packages with Parabola.
