Packages - Feature Request #3413

add OpenRC script to nonprism/tor-hardened-preferences

2022-12-30 07:43 PM - nona

Status:	open	% Done:	30%
Priority:	wish		
Assignee:			
Category:			

Description

- steps to reproduce:

1. pacman -S tor-hardened-preferences
2. rc-service tor start

- expected result:
  chrooted tor as if running tor-hardened.sh

- actual result:
  regular tor is run (there is no tor-hardened-preferences-openrc)

- contributed script
  The attached script works for me (at least to run (use with caution). Please, ammend and create a package or add to the existing tor-hardened-preferences. Hopefully, I will have the chance to finally get a system to create packages with Parabola.

History

#1 - 2022-12-30 09:37 PM - nona

- File tor added

#2 - 2023-01-04 12:48 AM - nona

- File deleted (tor)
