Packages - Bug #3427

[acpi_call][acpi_call-lts][acpi_call-dkms]: Need to be rebuilt for basekernel 6.1.5-1

2023-01-16 10:06 AM - h.ueno

Status:	fixed	% Done:	40%
Priority:	bug		
Assignee:	bill-auger		
Category:			

Description
As the version of linux-libre and linux-libre-headers has become 6.1.5-1, it is necessary to rebuild acpi_call.

History

#1 - 2023-01-16 10:23 AM - wael

- % Done changed from 0 to 40

- Status changed from unconfirmed to confirmed

Confirmed, waiting for Parabola hackers to rebuild.

#2 - 2023-01-16 11:00 AM - bill-auger

- Subject changed from [acpi_call] Need to be rebuilt for basekernel 6.1.5-1 to [acpi_call][acpi_call-lts][acpi_call-dkms]: Need to be rebuilt for basekernel 6.1.5-1

#3 - 2023-01-16 11:16 AM - h.ueno

I don't know if it's okay to ask here, but I'm sorry if I'm confusing you.

I previously needed a rebuild for 5.18 and created a ticket below (it says "in progress" but the task seems to be complete)
https://labs.parabola.nu/issues/3324

In this ticket, I received a reply from Mr. bill-auger that tp_smapi and tp_smapi-lts also need to be rebuilt.
Should I register tp_smapi and tp_smapi-lts as separate tickets? I just checked the packages and they are both built for 5.18.

#4 - 2023-01-16 08:48 PM - bill-auger

the tp_* (thinkpad) packages are in the same routine set - it is
not important which are mentioned by name - to mention that any
need a rebuild, implies the others

#5 - 2023-01-16 11:46 PM - h.ueno

I see! Thank you for your explanation.
I use a VAIO so I don't seem to have the tp package problem, but I got a slightly older ThinkPad (X270) and was planning to install Parabola on that
soon as well!
