[acpi_call-dkms] Need to be rebuilt for basekernel 6.1.5-1

2023-01-16 10:07 AM - h.ueno

Status:	duplicate	% Done:	40%
Priority:	bug		
Assignee:			
Category:			
Description			
As the version of linux-libre and linux-libre-headers has become 6.1.5-1, it is necessary to rebuild acpi_call-dkms.			

History

#1 - 2023-01-16 10:23 AM - wael

- % Done changed from 0 to 40
- Status changed from unconfirmed to confirmed

Confirmed, waiting for Parabola hackers to rebuild.

#2 - 2023-01-16 11:00 AM - bill-auger

- Status changed from confirmed to duplicate

duplicate of [#3427](#)

we only need one ticket for this - acpi_call, acpi_call-dkms, and acpi_call-lts always need rebuild together, for each new kernel - its become routine - the reminder is enough, in this case

#3 - 2023-01-16 11:03 AM - h.ueno

Sorry, next time I notice this issue and create a ticket, I'll post all three packages together. Thank you
