<b>Description</b>	
spyder needs to be rebuilt against new re2 (Version : 1:20230201-1)	
<pre>\$ spyder Traceback (most recent call last):   File "/usr/bin/spyder", line 33, in &lt;module&gt;     sys.exit(load_entry_point('spyder==5.4.1', 'gui_scripts', 'spyder')())   File "/usr/lib/python3.10/site-packages/spyder/app/start.py", line 248, in main     from spyder.app import mainwindow   File "/usr/lib/python3.10/site-packages/spyder/app/mainwindow.py", line 56, in &lt;module&gt;     from qtpy import QtWebEngineWidgets # analysis:ignore   File "/usr/lib/python3.10/site-packages/qtpy/QtWebEngineWidgets.py", line 28, in &lt;module&gt; ;     from PyQt5.QtWebEngineWidgets import QWebEnginePage ImportError: libre2.so.9: cannot open shared object file: No such file or directory  eg: instead, it prints: "ERROR: invalid argument (Is the 'foo' daemon running?)"</pre>	

### History

#### #1 - 2023-02-19 02:27 AM - bill-auger

- Related to Freedom Issue #2791: [spyder] depends on webengine added

#### #2 - 2023-02-19 06:30 AM - bill-auger

- Parent task set to #2791

i can not reproduce this - when i try to install 'spyder', it is not installable

```
:: unable to satisfy dependency 'python-pyqt5-webengine' required by spyder
```

that is [#2791](#) - i just tried to de-webengine this; but unsuccessfully

but, even if that were fixed, spyder and re2 are both from arch - so this would probably be their bug to fix - there is no arch bug report for it now though
