[python-pyqt5]: rebuild against latest qt5-base (x86_64)

2023-04-14 04:48 PM - kranos86

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description <ul style="list-style-type: none">• steps to reproduce: 1) # pacman -Syu• expected result: I expected my system, including qt5-base and python-pyqt5, to be updated.• actual result: Instead, pacman reports the following error: :: installing qt5-base (5.15.9+kde+r151-1) breaks dependency 'qt5-base<5.15.9' required by python-pyqt5

- Assignee set to bill-auger

- Status changed from unconfirmed to confirmed

this "bug" is expected and routine, as is this bug report and it's many duplicates over the years - it will recur each time 'qt5-base' is upgraded

to reduce duplicates, there exists a "sticky" epic ticket for 'qt5-webkit' and dependents - when this issue happens again in the future, plz comment on that ticket or one of the sub-tasks rather than open a new ticket each time
