Category:			

Description
Source: [https://github.com/acmesh-official/acme.sh/issues/4659] I don't use it, I just stumbled upon it while reading news. I also do not know if it is "only" a freedom issue or a bug. At least s.o. with knowledge has to check the github issue.

History

- Status changed from unconfirmed to not-a-bug

the exploit was fixed in a upstream new release yesterday - arch upgraded to that new release yesterday - and parabola got it yesterday

so ... good catch - thanks for reporting it - in this case, the arch maintainer also saw it, and acted immediately
