| <b>Description</b>  |                   |
| Found an issue with the build date in a package name:   |                   |
| <ul style="list-style-type: none"><li>• steps to reproduce:<br/>pacman -Syu</li><li>• expected result:<br/>To be able to upgrade the system as usual</li><li>• actual result:</li></ul> |                   |
| <pre>error: failed to prepare transaction (could not satisfy dependencies) :: installing ncurses (6.4_20230520-1) breaks dependency 'ncurses=6.4' required by lib32-ncurses</pre>       |                   |

## History

### #1 - 2023-06-19 11:07 AM - bill-auger

- Assignee set to bill-auger

- Status changed from unconfirmed to in progress

- Subject changed from [ncurses]: Build date in package name breaks dependency to [lib32-ncurses]: Build date in 'ncurses' package name breaks dependency

### #2 - 2023-07-13 02:59 AM - bill-auger

- Parent task set to #3501

- Description updated

- Subject changed from [lib32-ncurses]: Build date in 'ncurses' package name breaks dependency to [lib32-ncurses][lib32-libtiff][multiple]: warning: cannot resolve dependency

also 'lib32-libtiff' and probably others - this is related to [#3501](#)

```
warning: cannot resolve "libtiff=4.5.0", a dependency of "lib32-libtiff"
```

### #3 - 2023-07-13 03:30 AM - bill-auger

note that nothing is known to be broken because of this; but some multilib packages may not be installable until [#3501](#) is resolved - as a workaround for now:

```
# pacman -U https://archive.archlinux.org/packages/l/lib32-libtiff/lib32-libtiff-4.5.1-1-x86_64.pkg.tar.zst https://archive.archlinux.org/packages/l/lib32-ncurses/lib32-ncurses-6.4_20230520-1-x86_64.pkg.tar.zst
```

### #4 - 2023-09-23 04:36 PM - bill-auger

- Status changed from in progress to fixed
