

## Packages - Bug #353

### [unrar] remove it

2013-06-23 03:26 AM - mtjm

<b>Status:</b> fixed	<b>% Done:</b> 100%

<b>Description</b> unrar breaks programs that would use unar if no unrar is available (e.g. not all options are supported, frontends expect to use features not supported by unar while they don't need to). Fixing all packages depending on unrar to use unar or libarchive instead would remove the need for unrar and might take less resources (for all distros that don't include unrar) than maintaining and fixing unrar.
