

## Packages - Bug #3553

### Gnome-Boxes package has been broken for like 3 years

2023-10-27 09:25 PM - Chocolat

<b>Status:</b> confirmed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b> ovruni	
<b>Category:</b>	
<b>Description</b> <ul style="list-style-type: none"><li>• steps to reproduce:<ol style="list-style-type: none"><li>1) # pacman -S gnome-boxes</li><li>2) # select qemu-base, qemu-desktop or qemu-full</li></ol></li><li>• expected result: Install boxes normally</li><li>• actual result: can't satisfy the dependency «tracker», needed for gnome-boxes</li></ul> <p>The last time gnome-boxes was updated was in 2020 so it has been broken since that also is hyper outdated</p>	

#### History

- Status changed from unconfirmed to confirmed

thanks for noticing - i think what happened is that the 'tracker' package was never replaced; so anyone who was using gnome-boxes at the time never saw a problem (including the maintainer, apparently) - only those trying to install it on a system which was installed after 2020 would have noticed; and apparently not enough people want to use it that someone would have reported the bug already

##### #2 - 2023-10-28 01:55 AM - bill-auger

this will need some significant work - i noticed at least these two problems:

- hide\_download\_button.patch does not apply
- its dep 'libosinfo' needs upgrade; and its mksource() also needs significant re-working
