i think your right - it does not 'provide' anything and has no direct dependents; and is apparently from the same author

```
$ pacman -Sii libotr{3,} | grep -E 'Repo|URL|Provides|Replaces|Conflicts|Required'
Repository      : pcr
URL             : http://www.cypherpunks.ca/otr/
Provides        : None
Required By     : None
Conflicts With  : None
Replaces        : None
Repository      : extra
URL             : https://otr.cypherpunks.ca/
Provides        : None
Required By     : irssi kopete mcabber pidgin-otr profanity profanity-gtk
Conflicts With  : None
Replaces        : None
```
