

Packages - Bug #3606

[pacman] pacman-contrib, pyalpm and pacutils depend on libalpm.so.14

2024-03-19 03:50 PM - dllud

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description pacman needs to be updated to be on par with Arch and carry libalpm.so.14 Several auxiliary tools like pyalpm and those in pacman-contrib and pacutils are now failing due to the missing libalpm.so.14. Current pacman in Parabola (6.0.2-8.parabola1) only brings libalpm.so.13 Examples failures: # paccache -rk0 pacsort: error while loading shared libraries: libalpm.so.14: cannot open shared object file: No such file or directory # pycman-version Traceback (most recent call last): File "/usr/bin/pycman-version", line 27, in <module> import pyalpm ImportError: libalpm.so.14: cannot open shared object file: No such file or directory
