<b>Category:</b>	
<b>Description</b>	
packages that depend on pyside6 cant be updated since its blacklisted, a replacement is needed	

### History

#### #1 - 2024-03-24 12:34 PM - bill-auger

- Status changed from unconfirmed to confirmed

we will need to try building 'pyside6' without webengine - it is is not possible, all of these will need to go:

direct and transitive parabola dependents:

```
[pyside6] <- python-pivy <- libre/freecad
```

direct and transitive arch dependents:

```
[pyside6] <- extra/flashgbx
[pyside6] <- extra/onionshare
[pyside6] <- extra/persepolis
[pyside6] <- extra/pyside6-tools
[pyside6] <- extra/python-pivy
[pyside6] <- extra/rz-cutter
[pyside6] <- extra/usd
[pyside6] <- usd <- extra/f3d
[pyside6] <- usd <- extra/usd-extras
```

#### #2 - 2024-03-29 05:10 AM - bill-auger

- Parent task set to #1167

- Assignee set to bill-auger

- Status changed from confirmed to in progress

i only had to remove webengine from the build host and it compiles successfully, only complaining that the dependency was not found, which is explicitly "optional" - i noticed other "optional" dependency also not found, which the arch package apparently does not compile support for such as 'pypdf'; so this is probably a fine fix

#### #3 - 2024-03-29 06:22 AM - bill-auger

- Status changed from in progress to fixed

#### #4 - 2024-03-29 07:04 AM - bill-auger

i686 (v6.4.2) fails to build - these dependents will not be installable until arch32 rolls it forward
