<b>Description</b> I uploaded gcc-lts (custom package) in pcr repo, with provides and conflicts with gcc, but I can't use libretools, due which it breaks with libretools.  Due those problems I removed it from the repo, to which libretools work property.  <a href="https://projects.parabolagnulinux.org/abslibre.git/tree/pcr/gcc-lts">https://projects.parabolagnulinux.org/abslibre.git/tree/pcr/gcc-lts</a>	

#### History

#2 - 2013-08-30 01:27 PM - lukeshu

As we discussed on IRC, the issue was that gcc-lts was a member of group=(base), which is user error.
