

## libretools - Bug #384

### [qupzilla] Provides Facebook & Google by default

2013-08-12 05:36 PM - g4jc

<b>Status:</b> fixed	<b>% Done:</b> 100%
<b>Priority:</b> freedom issue	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b> Default install of QupZilla includes: <ul style="list-style-type: none"><li>• Google as default search engine</li><li>• Google and Facebook in "Speed Dial" (new tab page).</li></ul> These should be replaced with free/privacy respecting alternatives such as Disaspora and StartPage, or removed.
