

Packages - Bug #390

[iceweasel-libre] 23.0.2-1 broke Bookmarks Toolbar

2013-08-20 01:02 PM - joe

Status: fixed	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description When starting Iceweasel with Bookmarks Toolbar on, the toolbar appears as a blank area. The bookmarks appear after turning the Bookmarks Toolbar off and then turning it back on it again. The bookmarks will also appear if I start Iceweasel with the Bookmarks Toolbar off, and then turn it on. The issue is reproducible with new and old profiles, and with all add-ons disabled. Downgrading to 23.0.1-2 fixes it.	

History

#2 - 2013-08-24 03:00 PM - Anonymous

try again with our latest version (iceweasel-libre-1:23.0.1.deb1-1)

#3 - 2013-08-24 03:06 PM - Anonymous

icarious told to me that it was fixed in the latest version (iceweasel-libre-1:23.0.1.deb1-1) due that he checked it on his machine and works perfectly!

#4 - 2013-08-24 06:50 PM - joe

Thanks, Emulatorman. I just updated to the latest version, and the issue remains. I'm using x86_64 version.

I'll attach a few annotated screenshots.

#5 - 2013-08-24 06:53 PM - Anonymous

try create a new profile to test if it solves your problem

#6 - 2013-08-24 06:59 PM - joe

The screenshots I made were on a new profile that was created after I moved my .mozilla directory. More screenshots attached.

#7 - 2013-08-24 07:10 PM - Anonymous

ok, i reverted status of this report, maybe that bug provides from mozilla source code or debian patches

#8 - 2013-10-08 01:02 PM - arder

this bug only exists in Parabola, I have libre-Debian and Trisquel on another partition sharing the same home and works perfectly with the same profile, in libre-debian, trisquel and Parabola I have iceweasel 24

#9 - 2013-12-14 07:22 AM - Anonymous

- Status changed from open to fixed

it was solved on iceweasel-libre-1:25.0.deb1-2
