

## Software ports - Bug #391

**[boost] 1.54 linking with libboost\_thread fails with an undefined reference to boost::atomics::detail::lockpool::get\_lock\_for(void const volatile\*)**

2013-08-21 02:56 AM - mtjm

<b>Category:</b>	
<b>Description</b>	
Upstream issue <a href="https://svn.boost.org/trac/boost/ticket/8810">https://svn.boost.org/trac/boost/ticket/8810</a> . Solution: link it with libboost_atomic (easy) or implement MIPS-specific code for atomics (harder).	
Reporting here since it prevents the update of libkolabxml, kdepim-runtime, kdebase-workspace and many other KDE packages.
