| Description pbot should be able to answer nicks over a query to keep the mainscreen clean of unnecessary confusion. The "dpkg" bot does something similar on #debian. The sample syntax is "!tell nick about foo", and it passes the answer to the nick over a query. | |

History

#2 - 2013-08-24 01:31 PM - xylon

Implemented. Needs testing.

#3 - 2013-08-24 11:52 PM - xylon

fixed
