Packages - Bug #407

[debootstrap-libre] 1.0.53-3 missing dependency on binutils

2013-09-12 07:19 AM - mtjm

Status:	fixed	**% Done:**	100%
Priority:	bug		
Assignee:			
Category:			

Description
debootstrap needs ar to install packages, otherwise it fails with lines like "/usr/share/debootstrap/functions: line 810: ar: command not found" in its log and messages like "E: Unknown compression type for in .//var/cache/apt/archives/libacl1_2.2.52-1_amd64.deb". Installing binutils solves this, it should be added to debootstrap-libre's depends.
