

Servers - Bug #482

[parabolaweb] Enabling template caching breaks things

2014-01-31 01:42 AM - lukeshu

Status: fixed	% Done: 100%
Priority: bug	
Assignee: lukeshu	
Category:	
Description On the live site, enabling template caching (django.template.loaders.cached.Loader) causes some pages to 500 error, notably /sitemap.xml and /admin. This does not occur in my test install.	
Related issues: Has duplicate Servers - Housekeeping #1785: [parabolaweb]: 404 page is in DEB... fixed	

History

#1 - 2014-01-31 01:42 AM - lukeshu

- Subject changed from [parabolaweb] Enabling template caching breaks things to [parabolaweb] Enabling template caching breaks things

#2 - 2015-06-16 06:28 AM - lukeshu

Note: In the current version, the caching is enabled if not TEMPLATE_DEBUG, were TEMPLATE_DEBUG is currently set = True in local_settings.py.

#3 - 2018-05-03 07:09 PM - lukeshu

- Has duplicate Housekeeping #1785: [parabolaweb]: 404 page is in DEBUG mode added

#4 - 2019-02-24 06:56 PM - lukeshu

- % Done changed from 0 to 100

- Assignee set to lukeshu
