Description	
Hello,	
the following packages are referenced by libre.db for mips64el, but not available on the repo.parabolagnulinux.org server:	
libre/os/mips64el/libretools-legacy-20120924-1-any.pkg.tar.xz	
libre/os/mips64el/libretools-legacy-mips64el-20120924-1-any.pkg.tar.xz	
libre/os/mips64el/libretools-legacy-pr-20120924-1-any.pkg.tar.xz	
I hope "servers" is the right project in the bug tracker.
