I have create the file ~/dbscripts/cron-jobs/db-update-mailer (inspired from devlist-mailer (which contain mail of archlinux.org (maybe that file need a review too)))

Also I have send a db-update / db-sync command but nothing happen.

The scrip does not seems to works at this time.

I have saved db-update to db-update~old and modify db-update with the mail fonction.

need to be tested.

##### #6 - 2014-01-22 07:03 AM - lukeshu

- Project changed from Servers to libretools

##### #7 - 2016-04-15 11:44 PM - lukeshu

- Category set to dbscripts cleanup

##### #8 - 2017-01-21 12:37 AM - lukeshu

- Category deleted (dbscripts cleanup)

- Subject changed from [dbscripts] Make dbscripts tools send emails to maintenance list to [db-update et al.] Make dbscripts tools send emails to maintenance list

- Project changed from libretools to dbscripts

##### #9 - 2018-08-09 08:05 PM - lukeshu

- Status changed from open to not-a-bug

Everything is now logged to the systemd journal. Closing in favor of <https://labs.parabola.nu/issues/1943>
