Packages - Freedom Issue #521

[ovmf] use restriction

2014-05-04 04:21 PM - mtjm

Status:	fixed	**% Done:**	100%
Priority:	freedom issue		
Assignee:			
Category:			

Description
https://github.com/tianocore/edk2/blob/master/FatBinPkg/License.txt has additional terms making it nonfree. I haven't checked if this code is used in the package, nor if it is needed. Reported by GNUtoo on #parabola. Blacklisted.

History

#1 - 2014-05-05 07:35 AM - mtjm

Fedora wiki suggests the nonfree driver being necessary. Debian includes it in non-free, a developer asked Intel for relicensing.
