Branding - Bug #547

archey3 give an Arch Linux logo + system information in terminal

2014-06-13 01:34 PM - aurelien

Status:	fixed	**% Done:**	100%
Priority:	bug		
Assignee:	aurelien		
Category:			

Description

archey3 in community give information and logo of Arch
paraboley is its libre version (in pcr)

History

#1 - 2014-06-13 01:44 PM - aurelien

- Status changed from open to in progress

- % Done changed from 0 to 70

#2 - 2014-06-13 02:53 PM - mtjm

Some comments for pcr/paraboley:

- http://xl04d.github.com/paraboley is 404 * the changes in the script are too big for what's needed to rebrand it * you can get git hosting which doesn't use nonfree software on e.g. projects.parabolagnulinux.org

Why not use /etc/os-release for distro detection and just add some Parabola-specific code, like entries for colorDict and logosDict?

#3 - 2014-06-17 01:59 PM - aurelien

- Status changed from in progress to fixed

- % Done changed from 70 to 100

https://github.com/XL04D/paraboley

#4 - 2016-05-12 01:35 AM - Anonymous

- Project changed from 7 to Branding

#5 - 2018-11-17 02:15 PM - marthasimons

- File 322.gz added

- File 321.gz added
