

## dbscripts - Bug #569

Bug # 29 (in progress): Create P2P mirror infrastructure

### The torrent making code should be integrated into the other repo scripts

2014-07-02 08:03 PM - xylon

| This should not be hard, I'll work out what needs to be done. |                    |

#### History

##### #1 - 2014-07-02 08:30 PM - xylon

I've made an example file of what needs to be done: [https://t67.eu/filebin/integrate\\_pacman2pacman.bash](https://t67.eu/filebin/integrate_pacman2pacman.bash)

##### #2 - 2014-07-14 08:12 PM - xylon

- Project changed from pbot-ng to pacman2pacman

##### #3 - 2014-07-27 11:10 AM - xylon

I've divided `make\_repo\_torrents` into two scripts, `make\_individual\_torrent` to make the actual torrent and a `make\_repo\_torrents` wrapper to find any updated packages and call `make\_individual\_torrent` for each. Then, when I work out where to put it, we can get rid of the wrapper script and have it get called during db-sync or wherever.

##### #4 - 2014-10-05 08:06 PM - xylon

- % Done changed from 0 to 10

- Assignee set to fauno

lukeshu said on IRC:

```
put it in db-functions:cleanup(), in the "if (( REPO_MODIFIED ));" section. everything except db-sync calls it
```

I guess he means `make\_repo\_torrents`.

So we need to:

1. Move `make\_repo\_torrents` out of the `cron-jobs` folder in dbscripts.
2. Remove the cron job from crontab.
3. Make `make\_repo\_torrents` get called from where lukeshu said above.

##### #5 - 2015-10-12 02:21 PM - fauno

why am i assigned to this?

##### #6 - 2015-10-12 02:21 PM - fauno

- Assignee deleted (fauno)

##### #7 - 2018-10-07 06:52 AM - lukeshu

- Project changed from pacman2pacman to dbscripts

##### #8 - 2022-02-08 02:21 PM - bill-auger

- Parent task set to #29
