I've manually edited the database setting his email address to `pbot` let's see if this works.

**#3 - 2014-07-13 08:11 AM - xylon**

Well that didn't work because my `labs\_change\_detector` daemon was broken. Let's see if it works now.

**#4 - 2014-07-13 08:20 AM - xylon**

Well that still didn't work because it was looking in the wrong folder for emails. Maybe it will work now.

**#5 - 2014-07-13 08:21 AM - xylon**

OK, it works now.
