

Ports - Bug #6

[iceweasel-libre] 10.0.2 freezes

2012-02-17 07:12 PM - fauno

Status: not-a-bug	% Done: 0%
Priority: critical	
Assignee:	
Category:	
Description Several people are reporting this. I downgraded to iceweasel-libre 9 like this: <ul style="list-style-type: none">• extract usr/lib/libpng14* from libpng 1.4.8 (bsdtar xf http://repo.parabolagnulinux.org/extra/os/mips64el/libpng-1.4.8-1-mips64el.pkg.tar.xz usr/lib/libpng14*)• downgrade libvpx to 0.9.7 (pacman -U http://repo.parabolagnulinux.org/extra/os/mips64el/libvpx-0.9.7-1-mips64el.pkg.tar.xz)• downgrade iceweasel-libre to 9 (pacman -U http://repo.parabolagnulinux.org/libre/os/mips64el/iceweasel-libre-9.0.1.1-2-mips64el.pkg.tar.xz)

History

#2 - 2012-04-01 02:53 AM - fauno

It's the same with iceweasel 11. I'm attaching an strace log.

I suggest to rebuild iceweasel 9 with bundled libpng until we fix this.

#3 - 2012-04-01 05:49 PM - fauno

We have a working iceweasel 9 now

#4 - 2012-05-09 04:26 PM - mtjm

The same occurs with 12.0.3-1.

#5 - 2012-12-29 03:00 AM - mtjm

<http://bugs.debian.org/cgi-bin/bugreport.cgi?bug=692053> might be related (remember that there is no compile-time constant page size here). There are various other compilation problems in recent releases, we probably should build the 10.x ESR version (Debian has 17.x only on popular architectures, old releases aren't security-supported by Mozilla).

#6 - 2016-05-11 11:51 PM - Anonymous

- Project changed from 3 to Ports

#7 - 2017-10-14 09:21 PM - isacdaavid

- Status changed from open to not-a-bug

mips64el support is long gone
