

libretools - Bug #601

[libremakepkg] Requires 84 columns, should require only 80

Description 80+4 for indent. How to drop it to 80 would be to set the container's TTY to a width of 76, instead of the current 80. Perhaps simply setting \$COLUMNS would work, instead of having to do low-level PTY stuff. Perhaps new usermode PTYs will make this easier.
