Installation Media - Bug #663

pacstrap on ISOs doesn't copy the keyring

2015-02-02 01:33 AM - alfplayer

Status:	fixed	**% Done:**	100%
Priority:	bug		
Assignee:			
Category:			

Description

See the related issue [#662](#) for an explanation.

Necessary files can be copied like this

```
cp -na /etc/pacman.d/gnupg/* $newroot/etc/pacman.d/gnupg/
```

$newroot usually is the root partition mount point, likely /mnt

-n avoids overwritting gpg.conf, to use gpg.conf provided by the package pacman installed by pacstrap.
