

Packages - Bug #664

[texlive-bin] broken by poppler upgrade

2015-02-06 03:40 PM - fauno

Status: fixed	% Done: 100%
Priority: bug	
Assignee:	
Category:	
Description texlive utilities like `pdflatex` or `xelatex` are linked against a previous libpoppler, it needs to be rebuilt. i'm building the i686 version.	

History
