

Packages - Bug #691

Many packages don't contain package() or package_foo()

Description

I've found by grepping for `package(_\.)*s*(\s*)` that many packages don't contain any `package()` or `package_foo()` functions thus they won't build. I think a few months ago `makepkg` was bumped to a new version and it started requiring `package()` from all PKGBUILDs. So, these packages will either sit at those old versions and break in close future or someone will fix them. I think the most sensible thing would be to just delete them since for such a long time no one cared to fix them. I've tried to check as hard as possible if these PKGBUILDs really don't have a `package()` or `package_foo()` but you should definitely check it the second time. Here's the list:

```
pcr/log4c/PKGBUILD
pcr/startupmanager/PKGBUILD
pcr/ruby-haml/PKGBUILD
pcr/python2-pkgtools/PKGBUILD
pcr/ipmiutil/PKGBUILD
pcr/python2-passlib/PKGBUILD
pcr/perl-file-find-rule/PKGBUILD
pcr/elementary-icons/PKGBUILD
pcr/newlisp/PKGBUILD
pcr/nexuiz/PKGBUILD
pcr/perl-iptables-chainmgr/PKGBUILD
pcr/bash-dynamic-completion/PKGBUILD
pcr/python2-carrot/PKGBUILD
