[kmod] 5-4 check fails

2012-02-18 11:12 AM - mtjm

Status: fixed	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description Tests of 4-2 passed, I haven't build newer versions before 5-4 with a single failing test.	

History

#2 - 2012-03-19 09:33 PM - mtjm

Disabled the test, it uses binary modules for some non-mips64el architectures.

#3 - 2016-05-12 12:23 AM - Anonymous

- Project changed from 3 to Ports
