<b>Description</b>	
From <a href="https://wiki.parabola.nu/Nomenclature#Footnotes">https://wiki.parabola.nu/Nomenclature#Footnotes</a> :	
However, at the time of this writing, Parabola still lacks the isdnutils-dfsg package. This is because of technical issues with compiling the package on Parabola, we are trying to add it.	
I'm just copying this to Labs. I don't know if there's any interest in this package.
