Packages - Bug #805

Empty ca-certificates packages

2015-09-18 09:44 AM - GNUtoo

Status:	not-a-bug	**% Done:**	0%
Priority:	bug		
Assignee:			
Category:			

Description

At the time of writing, It's not empty in arch: https://www.archlinux.org/packages/core/any/ca-certificates/files/
I guess they have a newer version.

This breaks some software, it's also visible when installing mono:
(1/1) reinstalling mono   [#######################################] 100%
Unknown option or file not found '{0}'.
Linux Cert Store Sync - version 4.0.4.0
Synchronize local certs with certs from local Linux trust store.
Copyright 2002, 2003 Motus Technologies. Copyright 2004-2008 Novell. BSD licensed.

Usage: cert-sync [--quiet] system-ca-bundle.crt
Where system-ca-bundle.crt is in PEM format
error: command failed to execute correctly

Sorry, the bug should be closed (I don't have the rights to do that).

It is not a bug but an issue on my side instead (some files in /etc/ are lacking).

Denis.
