

Packages - Freedom Issue #827

[your-freedom] A lot of blacklisted packages in parabola repo

2015-10-10 12:40 PM - vgnu

Status:	fixed	% Done:	0%
Priority:	freedom issue		
Assignee:			
Category:			
Description			
If you'll visit package's page (https://www.parabola.nu/packages/libre/any/your-freedom/), you will see that a lot of links are clickable and user can freely install non-free from Parabola repo.			

History

#1 - 2015-10-11 04:49 PM - ovruni

Parabola repo does not contain nonfree software. Links are only in Parabolaweb, but you cannot download nonfree software.

[vgnu](#) is right, if i go to that page and click on the packages listed as conflicting, i see the profile of unfree packages, though trying to download them throws the expected 404 error.

i guess it's related to when db-sync allowed unfree packages through, but doesn't parabolaweb remove packages when it reloads the databases? [lukeshu](#)?

#3 - 2015-10-12 05:59 PM - mtjm

The files databases list blacklisted packages, it's not a ParabolaWeb issue.
