Description your-freedom conflicts with the package ponymix, but it is licensed under the MIT license https://github.com/falconindy/ponymix/blob/master/LICENSE It also doesn't have any dependencies that would cause a freedom issue. I don't see any reason why it should conflict with your-freedom. https://github.com/falconindy/ponymix	

History

#1 - 2015-10-21 09:02 PM - mtjm

- Assignee set to Anonymous

It was blacklisted before the license was added. It probably should be unblacklisted.

#2 - 2015-10-21 09:19 PM - Anonymous

- Status changed from open to in progress

#3 - 2015-10-21 09:41 PM - Anonymous

- % Done changed from 0 to 100

- Status changed from in progress to fixed

unblacklisted!
