

libretools - Bug #854

libremakepkg don't select a working mirror automatically

2015-11-07 03:48 PM - aurelien

Status: not-a-bug	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description Trying to build a package libremakepkg do not see that the mirror of ceata was down and do not switch automatically to a working one ... creating error like missing dependancies .. So it does not qualify the trouble correctly and does not switch automatically
