

pacman2pacman - Bug #865

Add translations

2015-11-12 07:32 PM - pizzaiolo

Status: fixed	% Done: 100%
Priority: wish	
Assignee: xylon	
Category:	
Description	
Translations should be possible with this tool. Ideally hosted on https://hosted.weblate.org/	

History

#1 - 2015-11-15 08:34 PM - pizzaiolo

- File *pacman2pacman-get-pt_BR* added
- File *pacman2pacman-get-eo* added

I have concluded translations for pt_BR (Brazilian Portuguese) and eo (Esperanto). All that is needed now is to adapt the file so that translation strings can be fetched automatically.

I also translated some strings I wasn't sure I was meant to translate, just to be on the safe side. Disregard in that case.

#2 - 2017-06-10 06:55 PM - xylon

Thankyou pizzaiolo!

I wasn't maintaining pacman2pacman at the time this bug was created. I will add this feature to use your translations soon!

#3 - 2017-06-10 08:54 PM - xylon

- % Done changed from 0 to 10

pizzaiolo we need a few more translations for the current version:

- Can't find a torrent file for this package :S
- Transmission didn't accept our torrent file - falling back to HTTP
- Webseed dead and no peers, removing torrent from transmission and trying by HTTP.
- error moving "\${pkgfile}": removing torrent from transmission

#4 - 2017-06-11 02:16 PM - xylon

- % Done changed from 10 to 100
- Status changed from open to fixed

Translation support added in version 20170611.2-1. Available in all upto-date mirrors now!
